

CCC

**10 YEARS**

## *„One for Aal, all for One!“*

– in 2009 the Competence Center ISOBUS e.V. was founded under this motto by the competitors AMAZONE, GRIMME, KRONE, KUHN, LEMKEN and RAUCH to manifest their vision of a cross-manufacturer co-operation. Ten years of joint development of innovative electronics are proof: teamplay works.

## CCI 100/200 – the ISOBUS-Terminal

Ergonomic design and functionality

- One-handed operation by swapping of softkeys
- Rotary encoder for efficient setpoint entry
- Bright 8,4" touchscreen colour display
- Function buttons for reliable operation in rough terrain
- “Toggle-key” for direct access to apps or machine interface

Awarded the Agritechnica Gold Medal for the multi-manufacturer operating concept.

2009

## Research and Standardisation

- Further development of the ISOBUS Standard in accordance with the practice (member of the AEF)
- Participation in public funded projects
- Cooperation with University's
- Bachelor/Master thesis and internships

This composite image features the ISOBUS logo at the top left, which includes the text 'ISOBUS Competence Center ISOBUS e.V.'. To the right is a hand pointing at a hexagonal grid with icons for 'Science', 'RESEARCH', and 'Innovation'. Below this is a photograph of a large conference hall with many people seated at tables. At the bottom right is the AEF logo, which includes the text 'MEMBER OF AEF' and 'Public Projects' with an icon of three people sitting at a table.

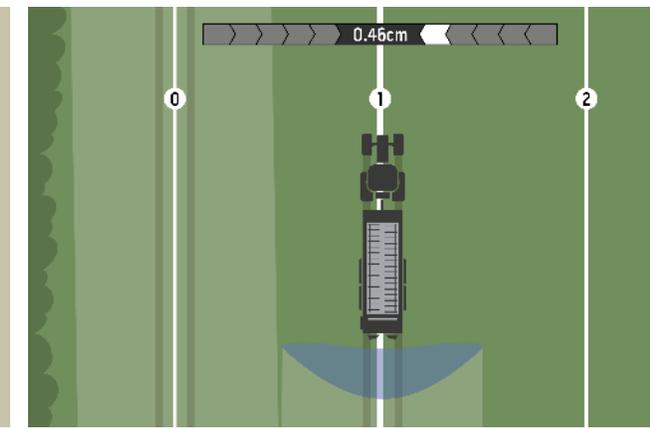

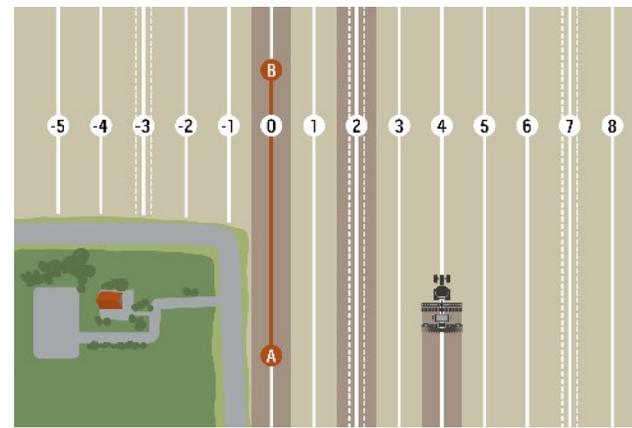

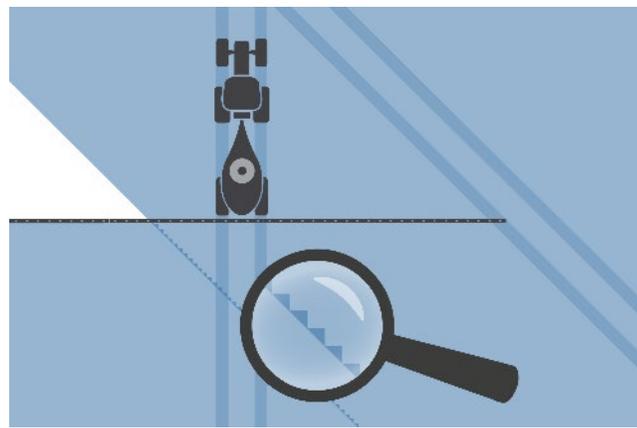

## CCI ISOBUS Training

-  ISOBUS Basics
-  CCI Terminals
-  Data Management
-  Training Plus

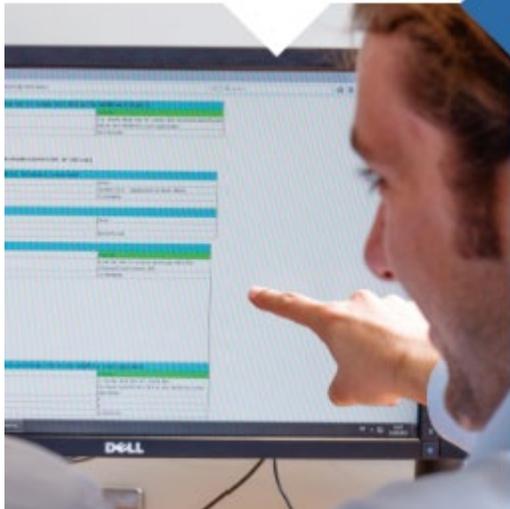

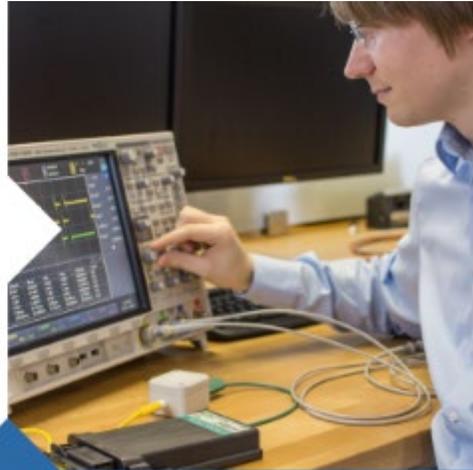

## *CCI Training*

The development of electronic agricultural systems and of the ISOBUS are making huge progress. But only those who know all the possibilities, can make full use of the advantages. We teach basics and give practical advice for your everyday business with ISOBUS – manufacturer independent and adjusted to your needs.

## *GPS Precision*

Efficiency and comfort from seed to harvest. Section Control automatically switches the sections of many machines. Overlaps and gaps are reduced to a minimum. Parallel Tracking ensures optimum connection when fertilizing and plant protection on grassland or pre-emergence. Rate Control allows site specific application with maps. Tramline Control automatically creates your tramlines via GPS.

Consulting

AEF Certification

Training

## *ISOBUS Test Center*

Your Partner for ISOBUS Certification.

- ISOBUS certification on behalf of the AEF
- Consulting for the development of ISOBUS products
- AEF Database Trainings
- Certification of agrirouter communication units

## CCI.Control Mobile

CCI.Control Mobile is an ISOBUS Task-Controller for the iPad and enables cross-manufacturer acquisition of machine data on a mobile device. Online data exchange and navigation to the field are so easy.

## *CCI 50 – ergonomisch, kompakt, preisgünstig*

The entry-level model in the ISOBUS world

- One-handed operation by swapping of softkeys
- Rotary encoder for efficient setpoint entry
- 5,6“ touchscreen colour display
- Function buttons for reliable operation in rough terrain
- “Toggle-key” for direct access to apps or machine interface

## CCI 1200

### *A new chapter of cross-manufacturer cooperation*

Plant, grow, harvest, repeat.

The incredible display and the flexible positioning of Implements, Camera and Section Control is fun for the entire season.

CCI 1200. Universal. Easy. Compatible.

2017

## CCI A3

### *Just that easy*

The revolution of ISOBUS AUX operation. The touch display shows the symbols of the operating functions. For different applications, each grid offers a different number and arrangement of keys. Dividers noticeably subdivide every function. With vibration feedback, the CCI A3 always gives a clear feedback when an operation is triggered.

## CCI 800

### *Welcome to the family*

The 8" display is ideal for those who want to concentrate on one application. Multi Touch in conjunction with the innovative operating concept offers an easy operation on smartphone level. Apps with Section Control and variable rate application enables precise application.

## *team play works.*

To date, 35 companies have joined the Competence Center ISOBUS. They use the expertise of the Competence Center, use the CCI ISOBUS driver and distribute the CCI products. A common success are the more than 50,000 CCI terminals produced.
